

STOLEN FROM PADDOCK

Hannah, a rising seven year old 11.2 hand dapple grey Welsh Pony mare, was stolen from a paddock in Katikati during the night of **Saturday, 30 August, 2008.**

This picture was taken last year.

Hannah has many distinguishing white markings, including white stockings on both hind legs to the hocks, coming to a point in front, and a white stocking to the knee (carpus) on the near (left) front leg. She also has a white blaze on her face, which is slightly indistinct due to her colour.

Hannah is in foal, due fairly soon. She really doesn't need this stress.

Hannah is a much loved pony and her family misses her terribly.

REWARD for her safe recovery.
